ALMANACH

OFFICE FOR REGISTRATION OF MEDICINAL PRODUCTS, MEDICAL DEVICES AND BIOCIDAL PRODUCTS

ISSN: 1896-3102

Dear Sir or Madam,

We have decided to issue **ALMANACH** for the purposes of transparency of the Office operations, and also to share our knowledge with our Readers.

We hope that you will be able to use **ALMANACH** information in your daily work. Most of all, we wish to provide reliable information.

We believe there are no taboos as far as people's life and health are concerned. Our ambition is to become an opinion-forming journal in the field of medicinal products, including medical devices and biocidal products, used in human and veterinary medicine.

We try to retain the same sections in every ALMANACH issue:

- **Office Announcements and News** - information on current Office operations;
- **Medicinal products** - publications concerning medicinal products for human use;
- **Veterinary medicinal products** - contents concerning medicinal products for veterinary use;
- **Medical devices** - articles on medical devices;
- **Biocidal products** - information on biocidal products.

It is worth noting that **ALMANACH** is not associated with any commercial projects - therefore, information contained in the journal can be as objective as possible and consistent with the current state of knowledge. It is also possible to present issues such as adverse reactions of medicinal products reliably.

By providing you with more **ALMANACH** issues, we invite you to cooperate with us and encourage you to take out the subscription and read our journal systematically.
