Szanowni Klienci,

Szczegółowe informacje dotyczące wadliwych wyrobów

Firma Teleflex Medical Europe Limited, spółka zależna Teleflex Incorporated, zainicjowała dobrowolną akcję naprawczą dotyczącą bezpieczeństwa („FSCA”) dla wyżej wymienionych produktów. Lista unikalnych identyfikatorów wyrobu („UDI”) i numerów partii uszkodzonych produktów znajduje się w załączniku 2.

Opis problemu i wymagane natychmiastowe działania

Firma Teleflex rozpoczyna dobrowolne wycofanie wyżej wymienionych produktów ze względu na doniesienia o rozszczepieniu lub odłączeniu się urządzenia podczas użytkowania. Urządzenia są przeznaczone do podłączenia do sprzętu ochrony dróg oddechowych na oddziałach intensywnej terapii i salach operacyjnych w celu ochrony sprzętu przed potencjalnymi zanieczyszczeniami z powietrza. Jeśli filtr pęknie lub oderwie się podczas użytkowania, funkcjonalność i wydajność urządzenia mogą być zagrożone, co może skutkować nieszczelnością i niewystarczającym dopływem powietrza do pacjenta z możliwością wystąpienia desaturacji.

Według stanu na sierpień 2022 r. wpłynęło łącznie 36 skarg dotyczących rozszczepienia lub odłączenia filtra w odniesieniu do produktów objętych niniejszym powiadomieniem dotyczącym bezpieczeństwa. Spośród tych 36 skarg, 4 skargi dotyczyły urazów, w tym desaturacji u pacjenta. W tej chwili nie zgłoszono żadnych zgonów ani długotrwałych obrażeń u pacjentów.

Z naszych danych wynika, że otrzymali Państwo produkty objęte zakresem niniejszego powiadomienia dotyczącego bezpieczeństwa.
