Firma Biomet UK Ltd przeprowadza działanie korygujące dotyczące bezpieczeństwa wyrobów medycznych (usunięcie) odnośnie niektórych cylindrów HipLOC™ w następstwie określonych skarg dotyczących zbyt małego otworu na cylindrze płytki HipLOC, wskutek czego śruba otulająca nie przechodzi przez cylinder. Problem jest wykrywalny przez użytkownika bezpośrednio przed użyciem podczas próby wkręcenia śruby otulającej do cylindra HipLOC. Kombinacje numerów elementów serii, których dotyczy zawiadomienie, można znaleźć powyżej w połączeniu z podanymi numerami serii w załączniku 2.
